# TAILS & BEAU

*The School Holiday Solution*

**We place emphasis on self – directed play here at Tails & Beau whilst providing plenty of teacher led sport and crafts!**

It's all about a healthy mix of child led play, which normally takes place in the garden, and teacher led activities. We have found the children thrive in both environments, and the success is normally found when the children have plenty of both! This Autumn, the children particularly enjoyed the garden space and the games and forest activities.

The fizzy paint cauldrons were a huge hit this October. The children were utterly enthralled by the experiment, watching the potion volume increase and the mini cauldron's overspill! Some of the 'toy' insects were bubbling upwards due to the reaction taking place which encouraged even more excitement.
